THOMAS TOWER BENCH

PRE-ASSEMBLY:

- Remove all parts and hardware from box and lay out on a carpeted or scratch-free work surface (The shipping box provides an ideal work surface), as this will avoid damaging any parts during assembly. Do not dispose of any contents until assembly is completed to avoid accidentally discarding small parts or hardware.
- Two people are recommended for ease of assembly.
- Use the parts and hardware lists to identify and separate each of the pieces included prior to starting assembly.
- The illustrations provided allow for easier assembly when used in conjunction with the assembly instructions.
- Note: DO not fully tighten all bolts until all parts are in place. Failure to follow these instructions may cause the bolts to misalign during assembly.
- If using power tools to aid in assembly please use caution. Power tools can damage hardware or split wood.
