ENGLISH

IMPORTANT SAFETY INSTRUCTIONS:

- Please read all instructions carefully before assembling this Dresser.
- For your safety, assembly by two or more adults is strongly recommended.
- Keep these instructions for future use.
- Use only vendor-supplied hardware to assemble this item. Using unauthorized hardware could jeopardize the structural integrity of the item.

PRE-ASSEMBLY:

- Remove all parts and hardware from the box. Place all items on a carpeted or scratch-free work surface, as this will avoid damaging parts during assembly. The shipping box provides an ideal work surface.
- To avoid accidentally discarding small parts or hardware, do not dispose of any packaging or contents of the shipping carton until assembly is complete.
- Use the parts and hardware lists below to identify and separate each of the pieces included.
- The illustrations provided allow for easier assembly when used in conjunction with the assembly instructions.
- The use of power tools to aid in assembly is not recommended. Power tools can damage the hardware and split the wood.

CONSIGNES DE SECURITE IMPORTANTES:

- Veuillez lire toutes les instructions avec soin avant de commencer l'assemblage de cette Commode.
- Pour votre sécurité, il est fortement recommandé que l'assemblage soit fait par deux adultes ou plus.
- Conservez les instructions pour usage ultérieur.
- Utilisez seulement le matériel fourni par le fabricant pour faire l'assemblage. L'utilisation de matériel non approuvé pourrait mettre en péril l'intégrité structurelle de l'article.

AVANT DE COMMENCER:

- Retirez toutes les pièces et le matériel contenu dans la boîte et disposez-les sur du tapis ou une surface qui ne causera pas d'éraflures pour éviter d'endommager les pièces pendant l'assemblage. La boîte d'emballage peut servir de bonne surface de travail.
- Ne jetez rien des produits d'emballage et du contenu de la boîte avant que l'assemblage soit terminé, afin d'éviter de jeter par mégarde de petites pièces ou des morceaux.
- Servez-vous de la liste des pièces et du matériel ci-dessous pour identifier et trier toutes les pièces incluses.
- Les illustrations fournies facilitent l'assemblage lorsqu'elles sont utilisées de concert avec les instructions d'assemblage.
- Il n'est pas recommandé d'utiliser des outils électriques pour l'assemblage. Les outils électriques peuvent endommager la quincaillerie ou fendre le bois.

FURNITURE TIPPING RESTRAINT

WARNING: This product is only a deterrent. It is not a substitute for proper adult supervision. Manufacturer assumes no liability for improper installation or excessive loads placed on screws, brackets or straps.

Young children may be injured by tipping furniture and the use of a tipping restraint is highly recommended.

When properly installed, this restraint will provide protection against tipping of furniture. This tipping restraint **MUST** be secured to a wall-stud or wall structure of similar strength.

Hardware Included: (2) Brackets 48 x 21 x 10mm (1) Nylon Strap 300 x 12 x 8mm
(2) Stud Mounting Screws 8 x 30mm (2) Product Side Mounting Screw 8 x 20mm

Note: For safe mounting it is essential to use the proper hardware for your wall type. The included hardware is for drywall or stud mounting only. For other wall types (e.g., plaster, concrete and brick) please consult your local hardware store for fastener advice.

To install:

1) LOCATING THE STUDS: Use a stud finder to locate the vertical wooden studs within your wall located behind the final position of the furniture item. Mark the stud locations with a light pencil-mark.

2) MOUNTING THE FURNITURE-SIDE BRACKET: Move the furniture item close to the wall to its final position. Use pieces of tape or a pencil to transcribe the stud locations of the wall onto the furniture item. Move the furniture item again so you can access its back and use the marks to locate a suitable mounting point for the furniture-side bracket. Make sure that the bracket is secured to a firm portion of the furniture frame and as high as possible. Remember: The furniture-side bracket must be positioned near a wall stud. Using a pencil, and the bracket as a guide, mark "screw marks" on the furniture item through the bracket holes

Use a 3/32" drill bit to drill pilot holes into the furniture item at the "screw marks". Use the TWO Short screws to secure the furniture-side bracket. This bracket can be positioned either vertically or horizontal as necessary (See Figure 1).

3) MOUNTING THE WALL-SIDE BRACKET: Position the wall-side bracket along the selected stud mark so that it will be adjacent the furniture-side bracket when the furniture item is moved to its final position. The wall-side bracket should be about ONE inch lower than the furniture-side bracket (See Figure 3). Use the TWO Long screws to secure the wall-side bracket to the wall. Remember to position the wall-side bracket vertically so that both screws will engage the selected wall stud (See Figure 2).

4) ATTACHING THE STRAP: When both bracket are securely attached, move the furniture to its final desired position and thread the strap through the openings of each bracket and also through the ratcheting "buckle". Tighten the strap until several "clicks" are heard. The furniture item is now securely tethered to the wall.

Note: If you must move the furniture item, you can release the strap by depressing the lever arm located at its buckle and simultaneously withdrawing the strap from the buckle. Make sure to reconnect the strap once the furniture item is returned to its previous position.
