## bean bench

The Bean Bench is shipped in two boxes. The slipcover is shipped separately from the insert. These instructions assume you have received BOTH the slipcover and the insert.

Parts list:

- A. Bench slipcover
- B. Polystyrene beads insert

Unzip the slipcover. Hold the slipcover in one hand. With your other hand, firmly grasp the insert at one end. Place the insert inside the slipcover and begin stuffing the insert inside the slipcover until you have fully inserted it into the slipcover.

When the insert is completely inside the cover, close the zipper and shape it with your hands until the beads are evenly distributed.

The Bean Bench slipcover is equipped with a locking zipper. You will find a key chain with a small key attached to the zipper slider. For maximum safety, please ensure the zipper is locked.

Thank you for your purchase.
